PROFESSIONAL SUMMARY

A tech enthusiast always in search to learn about new technologies and try best to learn about it .Passionate about web development and hardware projects .currently working on a machine learning project with my fellow mates to learn about the working and functioning of machine learning projects and trying to solve the problem at ground level for common peoples.

EDUCATION:

Bhilai Institute of Technology

B.Tech Computer Science & Engineering

Sem 1: 9.90 CPI ()

Sem 2: 9.65CPI(84.9%)

DAV Public School

Class 12th: 92%.

Class 10th: 88 %

PROJECTS:

1.Digital Electronics Calculator[HTML,TailwindCSS,Javascript,Reactjs,Nodejs] [Code link](#)

1. We built a web based calculator/converter to convert various number systems in Digital electronics to others.
2. It was a free to use website for the users to calculate their required output and perform various operations like addition,subtraction on digital numbers.

2.Solar Tracking System [Arduino,ArduinoIDE,TinkerCAD,C++] [Code](#)

1. It was a hardware based project that changed the position of the solar panel according to the direction of the sun in a single axis.
2. It helped to fully utilise the power of the sun's solar energy and generate more energy than a traditional solar panel in working.

SKILLS

Programming languages

Frameworks-Tools

Platforms

Python,C,Java,CSS,Javascript

VS code,GitHub,Git,AudioIDE

Windows,Linux,macos

CERTIFICATIONS

1. Introduction to Large Language Models
2. Introduction to Responsible AI
3. Introduction to Generative AI
4. The Complete 2024 Web Development Bootcamp(on going)
